President

University of Eastern Pangasinan

Canarvacanan, Binalonan

Dear Dr. Evelyn Abalos-Tomboc,

I hope you are doing well. My name is Allysa. M. Sanatana and I am an Information Technology student at University of Eastern Pangasinan. I am excited to share my portfolio with you, which highlights the skills I have developed during my studies. As an aspiring IT student, I am passionate about applying my knowledge in areas such as software development, network management, cybersecurity, and system administration.

Throughout my academic journey, I have had the opportunity to work on a variety of hands-on projects that have allowed me to strengthen my technical skills, including developing a web app, creating a network setup, or working on a database project. These experiences have taught me not only how to solve complex problems but also how to collaborate effectively, manage time efficiently, and adapt to new technologies quickly.

The portfolio I am sharing includes projects that demonstrate my proficiency in programming languages such as C++, HTML etc. as well as my understanding of IT systems, cloud platforms, and databases.

I believe my strong problem-solving abilities, attention to detail, and eagerness to learn make me a valuable candidate for internships or entry-level positions in the IT field. I would be thrilled to discuss how my skills and experience could contribute to your team and help you achieve your goals.

Thank you for taking the time to review my portfolio. I would love the opportunity to connect with you and explore how I can contribute to your organization. Please feel free to reach me at [your phone number] or via email at [your email address].

Sincerely,

**ALLYSA M. SANATANA**
